Test Name	Result	Biological Ref. Interval	Method
-----------	--------	--------------------------	--------

SARS-CoV-2 (COVID-19) Qualitative Real Time RT-PCR , Nasopharyngeal/Oropharyngeal Swab

SARS-CoV-2 (COVID-19) Qualitative Not Detected Real Time RT-PCR

ICMR SRF ID : 0767101847296

ICMR Registration No. for House of Diagnostics Healthcare Pvt. Ltd. is HDHPLDD.

Interpretation:

Result	Interpretation
DETECTED	Positive, RNA specific to SARS-CoV-2 Detected
NOT DETECTED	Negative, RNA specific to SARS-CoV-2 Not Detected
INCONCLUSIVE	A repeat testing on fresh sample is recommended

Note:

- Negative result does not rule out the possibility of Covid-19 infection. Presence of inhibitors, mutations & insufficient RNA specific to SARS-CoV-2 can influence the test result. Kindly correlate the results with clinical findings. A negative result in a single upper respiratory tract sample does not rule out SARS-CoV-2 infection. Hence in such cases a repeat sample should be sent. Lower respiratory tract samples like Sputum, BAL, ET aspirate are appropriate samples especially in severe and progressive lung disease.
- Covid-19 Test conducted as per kits approved by ICMR / CE-IVD / USFDA.
- Kindly consult referring Physician / Authorized hospitals for appropriate follow up.
- This is a qualitative test. The Ct values do not provide a measure of viral load due to inherent variability in sampling and kits. According to ICMR guidelines Ct values should not be used to gauge the severity of the disease.

Comments:

Coronaviruses (CoV) are a large family of viruses that cause illness ranging from the common cold to more severe diseases such as Middle East Respiratory Syndrome (MERS-CoV) and Severe Acute Respiratory Syndrome (SARS-CoV). Coronavirus disease (COVID-19) is a new strain that was discovered in 2019 and has not been previously identified in humans. Common signs of infection include respiratory symptoms, fever, cough, shortness of breath and breathing difficulties. In more severe cases, infection can cause pneumonia, severe acute respiratory syndrome and kidney failure

Remarks: Please correlate results clinically.
